GNS 211 INTRODUCTION TO HISTORY AND PHILOSOPHY OF SCIENCE AND COMPUTER APPLICATION

COMPILED BY

SEN OLALERE

RIDWAN ADEWALE

18TH TASFUEDSU PUBLIC RELATIONS OFFICER

The following Questions and Answers were extracted from each chapter of the textbook to aid assimilation for 200 level students in TASFUED.

PAST QUESTIONS ARE UNDERNEATH FOR READING.

I'M SEN OLALERE RIDWAN ADEWALE,a bonified student of the

HISTORY AND DIPLOMATIC STUDIES DEPARTMENT

IN TAI SOLARIN FEDERAL UNIVERSITY OF EDUCATION

FOR ACCURATE AND RELIABLE INFORMATION AND UPDATES ABOUT TASFUED,KINDLY GET IN TOUCH WITH ME VIA CALL OR WHATSAPP.

08140384063

1. UNIVAC and ENIAC are examples of generation

computing device.

(a) first

(b) second

(c) third.

2. The most powerful and faster is computer.

(a) super

(b) mainframe

(c) minicomputer

3. The beads on Abacus are strung in —-

(a) column

(b) rows

(c) vertical

4. Car speedometer is an example of_

(a) analog computer

(b) digital compter

(c) hybrid computer

5. Third generation of computer used ---

(a) transistor

(b) microprocessor

(c) integrated circuits

6. In terms of purpose, it will either be general -purpose

computer or -----.

(a) local purpose

(b) special purpose

(c) universal purpose

7.refers to the tangible and physical components of the computer.

(a) hardware

(b) software

(c) humanware

8.EDVAC stands for -----.

(a) Electronic Delay Variable Automatic Computer

(b) Electronic Discrete Variable Automatic Computer

(c) Electronic Discrete Variable Automatic Calculator

9..RAM stores information

(a) temporarily

(b) permanently

(c) moderately.

10.BIOS stand for ---

(a) Basic Input and Output System

(b) Basic Input Output System

(c) Basic Input Output and System

11.Fifth generation of computer use

(a) Vacuum tube

(b) transistor

(c) artificial intelligence

12. How many generation of computer do we have ?

(a) 6

(b) 5

(c) 4

13. Which generation of computer is most expensive?

(a) second generation

(b) third generation

(C) first generation

14. Secondary memory is also known as -

(a) Hierarchy memory

(b) Auxiliary memory

(c) Magnetic memory

15.CTRL,SHIFT and ALT are _keys.

(a) function

(b) control

(c) power

16. is the branch of computer science concerned with making computers to behave like a humans.

(a) robotics invention

(b) artificial intelligence

(c) programming

17. ___are set of instructions that run on the computers hardware

(a) softcopy

(b)software

C.CPU

18.Napier's bone was developed by --.

(a) John Napier

(b) James Napier

(c) Joshua Napier

19.Napier bone was developed in –

(a)1641

(b)1714

(c)1614

20.Pascaline machine was built by French Mathematician in -

(a)1643

(b) 1642

(c) 1643

21.Slide rule invention was dormant until 1850, when added the moveable double sided cursor.

(a) Amedee Mannheim

(b)Ada Lovelace

(c)Amedee Mayor

22.Difference engine was invented by Charles Babbage in –

(a)1812

(b)1912

(c)2012

23. Pin's on the vacuum tube's base were connected via --

(a) cables

(b) wires

(c) cord

24.The first ____were at AT&T's Bell Laboratories.

(a) vacuum tube

(b)translator

(c) transistors

25.The term microprocessor and interchangeably___are used

(a) system unit

(b) laptop

(c) C. P. U

26.Voice recognition is one of the application of generation of computer.

(a) first

(b) fifth

(c) third

27.Artificial Intelligence was coined in 1956 by -----

(a) John Napier

(b) John McCarthy

(c) John George

28.____computers can be adapted to perform a particular task or solve problems by means of specially written programs.

(a) General Purpose

(b) Special Purpose

(c) Complex Purpose

29.Microcomputer memory unit stores between

(a) 32 and 64 bits

(b) 32 and 100 million characters of data.

(C) 32 and 1000 million characters of data*

30. are used for weather forecasting and oil exploration by scientists.

(a) special computers

(b) super computers

(c) research computers

31.Special computer is also known as

(a) arcade computers

(b) archaic computers

(c) specialised computers

32.Super computer is also known as -

(a) master computer

(b) monster computer

(c) hybrid computer

33.RAM stores information

(a) temporarily

(b) permanently

(c) moderately.

34. Digital computer displays in

(a) base 10

(b) basic form

(C) binary system

35. was the first commercial computer.

(a)ENIAC

(6) EDVAC

(c) UNIVAC

36.Abacus is derived from a word.

(a) Hebrew

(b) Greek

(c) Latini

37.It is generally agreed that the first major step in the development of computers can be attributed to --

(a) Charles Babbage

(b) Charles Babege

(C)Charles Babbage

38._was the first machine invented by Charles Babbage.

(A) Analystical engine

(b) Difference engine

(c) Calculating engine

39.ROM is _memory.

(a) non - volatile

(b) volatile memory

(c) recoverable memory

40. CAPs LOCK is locks the keyboard, so as to type in

(a) capital letter

(b) upper case and lower case

(c) none of the above

41.BKS mean Backspace is used to delete the character the

(a) right

(b) left

(c) left and right.

42._directs the operation of input and output devices.

(a)BIOX

(b) software

(c) BIOS

43.TAB moves the cursor _spaces to the _ respectively.

(a) four, right

(b) five, right

(c) three, right

44.ESC is used to _

(a) cancel out current operation

(b) goes to the previous one

(c) a & b

45.The most powerful computer is

(a) mini computer

(b) microcomputer

(c) supercomputer

46. Which of these is out of place?

(a) bar code reader

(b) light pen

(c) JPEG viewer

47. The first major step in the development of computer can be attributed to ---.

(a) Charles Babbage

(b) Elon Musk

(c) Mark Babbage

48. First generation of computer used

(a) battery

(b) vacuum tab

(c) vacuum tube

49. machine was acclaimed to be the first true calculating machine.

(a) Pascaling

(b) Pascaline

(c) Pascalin

50. Abax meaning table or board covered with__

(a) dust

(b) dirt

(c) cloth

51.___is more powerful and faster than minicomputer.

(a) mainframe

(b) microcomputer

(c) a&b

52. What technology was used for temporary data storage in early digital computers?

(a) magnetic tape

(b) punched cards

(c) vacuum tube

53. Who invented the punch card?

(a) Dr. Odulaja

(b) Dr. Semen Warder

(c) Joseph Marie Jacquard

54.In magnetic tape data storage,the data recorded can remain for a long time in excess of

years.

(a)nine

(b) ten

(c) one

55. Hardware is classified into system unit and

(a) control unit

(b) peripherals

(c) Logic unit

NOTICE !!!

These are not examination questions but extracted questions from the recommended textbook relating to this course which will be helpful to everyone offering the course.

I WISH EVERYONE SUCCESS IN THE FORTHCOMING E-TEST AND EXAMINATION. WE'LL NEVER HAVE CAUSE TO REGRET (AMEN).

FOR ACCURATE AND RELIABLE INFORMATION AND UPDATES ABOUT TASFUED,KINDLY GET IN TOUCH WITH ME VIA CALL OR WHATSAPP.08140384063
